Under the word Years find the Year, above which is the Dominical or Sunday Letter for that Year; then against the Months in the other Table find the same Letter, over which are placed the days of the Month for every Sunday in the Month. In Leap Year, for January and February, use the Letter above the blank space for the Year; for all the rest of the Months, use the letter belonging to the respective Year.

To find out, when it is Leap Year, divide the Year by 4; if there is no remainder, it is Leap Year; and if any remainder, it is 1, 2 or 3 years after Leap Year.

During this month the wind blows uniformly and steadily from the N. E. with occasionally an inclination towards the East about the middle of the day in the shape of sea breeze. In the mornings for the most part heavy dew is deposited, and occasionally fog, which reaches only to two or three feet above the surface of the ground ; the weather is mostly very serene, presenting about twenty days of uninterrupted clearness and five of haze or mist, the remaining days being clouded, with perhaps, a single shower of rain ; lightning is almost unknown in this month.

The hottest time of the day is at 1h. 20m. P. M. ; the coldest at 4h. 20m. A. M.

The N. E. Monsoon continues with occasional exceptions till the middle of the month, after which calms and S. E. winds as frequently prevail : in the early part of the forenoon it is usually calm until the sea breeze sets in, which commences about 11 A. M. and blows till 10 or 11 P. M. During the whole of this month the weather is without exception, always beautifully clear and placid, and is generally considered to be the most healthy period of the year ; there are no more than one day of haze, and one of clouds. Rain or lightning does not occur once in seven years.

The hottest time of the day is at 0h. 40m. P. M. ; the coldest at 5h. 0m. A. M.

Throughout this month the South or *along shore* wind with very unequal force prevails; it is accompanied with a profuse dampness and sultriness, which renders its effects highly prejudicial to health and comfort; on this account the sea breeze which sets in at Noon and blows till 10 p. m. is less courted than at other Seasons; the sky is however beautifully clear for about twenty-seven days, the remaining four being cloudy; dew less frequently occurs, and is less in quantity than last month; rain and lightning are little known.

The hottest time of the day is at 0h. 20m. p. m.; the coldest at 5h. 0m. a. m.

The remarks of last month relative to the wind are equally applicable to this: the S. wind varying from S. E. to S. W. still continues, at times blowing very fresh but occasionally calms, which are exceedingly oppressive. The weather is clear for about twenty-four days, with four days of flying clouds or haze, and two of clouds, on one of which rain falls; lightning occurs for two days. Dew is very little in quantity, and of unfrequent occurrence.

The hottest time of the day is about noon; the coldest at 4h. 50m. A. M.

The South wind which is mentioned as peculiar to the two last months, continues till the middle of this month, relieved sometimes by a land wind from the W. or S. W. ; in this interval gales of wind of extreme violence have occasionally been experienced, commencing their career generally at the N. W. and veering to every point of the compass; about the 16th, the regular land or hot winds set in, which are moderated in their effect towards the end of the month by occasional showers. The sea breeze sets in about noon and blows till 9 or 10 P. M. There are about nineteen days of clear weather, eight of flying clouds and haze, and four cloudy days, on two or three of which there is rain; the dew is almost imperceptible, and lightning with thunder occur about four times.

The hottest time of the day is at 11 h. 20 m. A. M. ; the coldest at 4 h. 20 m. A. M.

* In this statement the rain which fell during three gales of wind has been omitted; on 2d May 1811 during the gale which then blew there fell 5.5 Inches; on 8th, 9th, and 10th May 1820, 16.54 Inches; and on 7th, 8th, and 9th May 1827, 23.30 Inches.

The regular westerly winds which terminate about the middle of this month are succeeded by winds of a light and variable nature, mostly from the West and South ; calms, haze, and rain occur in about the same proportions as last month, leaving about eight days of clear weather ; lightning unattended by thunder is very frequent, but thus accompanied, it occurs only once or twice. The sea breeze assumes much the same character as that experienced last month, commencing at 2 or 3 p. m. and continuing till 8 or 10 p. m. Dew is sometimes discovered but more frequently fails.

The hottest time of the day is at 2h. p. m. ; the coldest at 3h. a. m.

Throughout the month light and variable winds with occasional calms continue, and with the exception that the weather is not quite so much clouded, the remarks of last month apply with equal propriety to this. Lightning occurs almost every evening, but accompanied by thunder three times only. The sea breeze sets in about 2 or 3 p.m. and blows till 8 or 10 a.m. but occasionally fails for two or three days together; dew is common but small in quantity.

The hottest time of the day is at 2h. p.m.; the coldest at 4h. 20m. a.m.

The clouds now begin to assume a more dense appearance than heretofore, calms, lightning and rain, are very frequent till the 19th, when the N. E. Monsoon or rainy season sets in; from this time till the end of the month, the atmosphere assumes a very disturbed appearance; extremely heavy rain with storms of wind, thunder and lightning invariably occur, and gales of wind of a similar nature to those which occur in the earlier part of the year* are sometimes experienced; on those occasions a depression of the Barometer of, 4 or, 5-tenths of an Inch is observed. The sea breeze or rather a slight modification of the N. E. wind is perceived towards the middle of the day. The hottest time of the day is at 1 P. M.; the coldest 4h. 50m. A. M.

The N. E. Monsoon continues with unabated force, and the state of the weather generally is much the same as that experienced towards the end of last month, save that an increased dampness of the air and the less frequent occurrence of lightning render a distinction necessary. The number of clear and cloudy days in this, as well as last month, is liable to great uncertainty.

The remarks relative to sea breeze of last month apply equally to this.

The hottest time of the day is at 0h. 20m. p. m.; the coldest at 5h. 40m. A. M.

The heavy rains and violent gusts of wind are much moderated at the beginning of the month, and arrive at their close about the 15th; from this time the sky assumes an appearance of tranquillity and clearness which forms a strong contrast with the disturbed state of the preceding month; the N. E. wind however continues throughout the month without interruption; there are about thirteen clear days, eleven cloudy, and seven days of flying clouds and haze; of these there are six days on which rain falls. The mornings exhibit a copious deposition of dew and sometimes a ground fog which does not reach more than two or three feet above the surface. The sea breeze sets in at 10 A. M. and blows till 4 P. M.

The hottest time of the day is at 0h. 50m. P. M.; the coldest at 2h. 50m. A. M.

Under the degree of Latitude of the given place and opposite to the day of the month, on the *left hand side*, will be found the time of the Sun's centre rising, and on the *right hand side* the time of setting. In consequence of Refraction on which causes the heavenly bodies when in the horizon to appear elevated about 31 m. above their true places, the observed time of the sun rising will happen about two minutes earlier, and the time of setting the same quantity later than that which is here given.

*Abstract of Act 33, Geo. III. Cap. 52, Sec. 70, precluding the return to their duty of
CIVIL AND MILITARY SERVANTS, after an absence of Five Years.*

And be it further enacted, that no person who shall have held any Civil or Military Station whatever, in India, in the Service of the said United Company, being under the rank or degree of a Member of Council or Commander in Chief of the Forces, and who, having departed from India by leave of the Governor General in Council, or Governor in Council, shall not return to India within the space of five years next after such departure, shall be entitled to any rank or restoration of office, or be capable of again serving in India, either in the European or Native Corps of Troops, or in the Civil line of the Company's Service; unless in the case of any Civil Servant of the Company, it shall be proved, to the satisfaction of the Court of Directors, that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India, by a vote or resolution passed by way of ballot, by three parts in four of the Proprietors assembled in General Court, specially convened for that purpose, whereof eight days previous notice of the time and purpose of such Meeting shall be given in the London Gazette, or unless, in the case of any Military Officer, it shall be proved, to the satisfaction of the said Court of Directors, and the Board of Commissioners for the affairs of India, that such absence was occasioned by sickness or infirmity, or some inevitable accident.

Regulations for the
GRANT OF ABSENTEE ALLOWANCE
TO CIVIL SERVANTS WHEN IN EUROPE,

FORT ST. GEORGE, November 6, 1832.

The Right Honorable the Governor in Council is pleased to authorize the publication of the following rules and orders relative to the grant of Absentee Allowances to Civil Servants of this Presidency.

Extract from a Letter from the Honorable the Court of Directors, dated 31st December 1824.

19. "That after an actual residence in India in the Civil Service of ten years or upwards a Covenanted Civil Servant of the Company, upon either of the Establishments of Bengal, Madras or Bombay, shall be entitled, whether on account of ill health or from any other cause, and without reference to his private fortune, to come once to Europe on leave for three years, and to receive for that period from the Company's Cash an allowance of £500 per annum, provided that in no case shall a greater number of Servants come Home under this Regulation annually than seventeen from Bengal, nine from Madras, and six from Bombay, nor shall a larger number of Servants who may have come Home under this Regulation be absent in the whole at one time than fifty-one from Bengal, twenty-seven from Madras, and eighteen from Bombay, and that the preference shall be given first to Servants producing Medical Certificates upon oath that a visit to Europe is indispensably necessary for the restoration of health, and then to Servants in their order of seniority according to the rank assigned to them by the Court of Directors in the Gradation List of the Service.

20. "That in cases of Civil Servants compelled by illness, certified upon oath, to come to Europe previous to their completion of an actual residence in the Civil Service of ten years, such Covenanted Servants shall each be presented with the sum of 2,000 Sicca Rupees as Passage Money and shall be entitled for a period not exceeding three years to an Allowance from the Company's Cash of £250 per annum; but that Servants having received this indulgence shall not in the event of their again coming to Europe after having completed a residence of ten years or upwards be entitled to any Allowance under the first Regulation except their return be again occasioned by illness to be in like manner certified upon oath, and then only to the difference between what they have before drawn, in the shape of Absentee Allowance exclusive of Passage Money and that of £500 per annum for three years.

21. "That Servants coming in the first instance to the Cape of Good Hope for the benefit of their health, and being compelled from the same cause to come from thence to Europe without previously returning to India, shall be considered as entitled to the benefit of the foregoing Regulations.

22. "That in all cases, as well in those of Servants coming in the first instance to the Cape, as well as of those coming direct from India, the said Allowances be considered as commencing from the date of leaving India and terminating at the expiration of three years from that date or at the time of arrival in India whichever may first happen.

23. "That the same be paid half yearly in Europe.

24. "That on no account or plea whatsoever the allowances in question be extended beyond the period of three years; and

25. "That any Servant being in the receipt of Absentee Allowances from a Civil Fund shall not be entitled to receive during the same period of absence the Allowances prescribed by these Regulations beyond such amount as may bring the total of his annual receipts from both sources to the sum hereby limited."

Orders of Government, dated 8th July 1825 and 26th August 1825.

In pursuance of the Honorable Court's instructions, the Governor in Council is prepared to grant the benefit of these Regulations to such Civil Servants as may produce the prescribed Medical Certificate as the cases may arise; every Civil Servant so applying, must obtain a Certificate in duplicate from the Trustees of the Civil Fund notifying either that he will receive no Allowance from the Fund during his absence from Europe; or, if he is to receive any, the nature and extent of such relief; one copy of which Certificate must be submitted with his application to Government; the other, upon his arrival in London, must be produced before the Auditor of East India Accounts.

Civil Servants desirous to avail themselves of these Regulations and not producing the prescribed Medical Certificate, are hereby required to make known their desire to Government on or before the 1st December of each year, when the indulgence will be granted in order of rank to such extent as the foregoing Regulations and circumstances shall permit.

Every Civil Servant proceeding to Europe under these Regulations, whether on sick certificate or otherwise, before receiving his Passage order must have applied for and received from the Secretary to Government in the Public Department a Certificate specifying the grant of the permission and whether granted upon sick certificate or on account of private affairs; also specifying as nearly as possible the date of embarkation for Europe; which Certificate, upon his arrival in London, must be produced before the Auditor of India Accounts.

Order of Government dated 4th November 1825.

The Governor in Council has been pleased to resolve, that in lieu of the medical certificate upon oath prescribed in Paragraphs 19 and 20 of the Regulations of the Honorable Court of Directors for the grant of Absentee Allowance circulated to the Civil Service under date the 8th July last, one of the following forms of medical certificate shall hereafter be adopted, according to the nature of the case; the same to be always signed by the medical officer who has last regularly attended the invalid, and countersigned by the Superintending Surgeon of the District or other superior Medical authority.

FORMS, No. 1.

I do hereby certify that A. B. is in a bad state of health, and that I think it highly advisable for him to return to Europe.

Station
and Date.

(Signed) C. D.

Surgeon or Assistant Surgeon.

(Signed) E. F.

Superintending Surgeon.

I do hereby certify that A. B. is in a very bad state of health, and that I think an immediate return to Europe is necessary for his recovery.

Signed and Countersigned as above.

No. 2.

I do hereby certify that A. B. is in an extremely bad state of health, and that I think an immediate return to Europe is absolutely necessary for his recovery.

Signed and Countersigned as above.

Extract from a Letter from the Honorable Court of Directors in the Public Department, dated 26th April 1826.

3. In your Despatch in this Department dated the 6th of September 1825, Paras. 6 and 7, you have brought to our notice two questions raised in respect of the Regulations framed by us for granting Absentee Allowance to Civil Servants when in Europe.

4. The first of these questions is

"Whether it is competent for a Civil Servant who may have completed a residence of ten years to proceed to England and there await his turn to the indulgence of the Honorable Court, having previously notified to Government his desire to avail himself of the liberality of the Honorable Court upon the first occasion on which it should be open to him."

5. This question we answer in the negative. In framing the Regulations, it was our object, that whilst each Civil Servant, might be enabled once in the course of his service to have the benefit of the Absentee Allowance, the number annually returning to England with that view should be limited, an object which would be defeated if Civil Servants were allowed to come home and wait their turn in England.

6. The other question is "Whether the ten years actual residence in India is to be considered to embrace the period passed at Hertford College," to which we reply

that such is not the intention. We mean the regulation to be construed in the sense which it expresses, "actual residence in India."

Extract from a General Letter from the Honorable the Court of Directors in the Public Department, dated the 25th July 1827.

Para. 3. "Previously to the enactment 53d Geo. 3, Cap. 155, it was our practice to forward to you Lists of the relative rank of Writers appointed from time to time to your Establishment. Under the authority of that enactment Regulations were framed for the government of our College of Haileybury, one of which provided that the relative rank of Writers should be fixed by the College Council, and specified in the College Certificate, subject however to loss of such rank in the event of the Writers failing to proceed to India within a specified time. Lists of the rank of Writers under this Regulation are now periodically forwarded to you.

4. The offers of the Absentee Allowance are to be made in the order in which Civil Servants have been, or may be, classed under the Rules to which we have adverted, to such of the Servants as shall have actually resided in India in the Civil Service of your Establishment during a period of not less than ten years, commencing from the date of arrival at Madras.

6. On reference to our Letter dated the 26th of April 1826, Para. 5, you will perceive that it is not competent for a Civil Servant, having completed a residence of ten years, to come to England and there wait his turn for the Absentee Allowance. That Allowance is to be granted in each case by the local Government under the Regulations which we have prescribed, and no Civil Servant will be permitted to draw Absentee Allowance in England who shall not, previously to his quitting India, have been admitted to that benefit by the Government of the Presidency to which he may belong.

7. So soon as the aggregate number of Civil Servants absent, and who shall have come Home upon the Absentee Allowance of £500 per annum, shall amount to twenty-seven, the same indulgence is only to be granted as Servants included in that number may either return or quit the Service; so that the total number of Absentees having left Madras upon the allowance of £500 per annum is never to exceed the limit of twenty-seven fixed by our orders dated the 30th December 1824.

Extract from a Letter from the Honorable Court of Directors in the Public Department, dated 5th December 1827.

Letter from dated 16th October 1826.

Paras. 2 & 6. Submit question, whether the Regulation which precludes a Civil Servant from simultaneously receiving Absentee Allowance from the Company and from the Civil Fund is to be constituted as barring the receipt of any sum from the Civil Fund in aid of the expense of Passage to Europe.

Letter from dated 30th March 1827.

Paras. 71 and 72, Court requested to reconsider their decision upon the question of permitting a Civil Servant to come to Europe in anticipation of being admitted to the Absentee Regulations.

2. The receipt of Absentee Allowance from the Company must bar the receipt of any Allowance in any shape from the Civil Fund.

4. We shall not object to the advance to a Servant coming Home under the Absentee Regulations and not entitled to Passage Money, of six Months allowance in cases in which you may be satisfied that that indulgence is required to enable the party to provide a passage.

7. We adhere to the determination communicated to you in our despatch dated the 26th April 1826, Para. 5. No servant will hereafter receive the Absentee Allowance who shall not have been admitted by the local Government to the benefit of the Regulations previously to leaving India, excepting only such Servants as may have been compelled by ill health to quit India on a voyage to some place within the limits of the Company's Charter or to the Cape of Good Hope and as may have been subsequently compelled by the same cause to come to Europe. In such cases where the Servant has resided more than ten years in India the benefit will of course be withheld wherever the number of Absentees limited by the Regulations is complete.

Order of Government dated 18th November 1828.

The Right Honorable the Governor in Council has been pleased to resolve that all persons who may be permitted to proceed to Europe, with the benefit of the Absentee Allowance, shall vacate their situations and avail themselves of the indulgence within three months from the date on which it may be granted.

Extract from a letter from the Honorable Court of Directors in the Public Department, dated 6th May 1829.

Civil Servants who decline to subscribe to the New Annuity Fund are not admissible to the benefit of the Absentee Regulations.

REGULATIONS RESPECTING MILITARY AND OTHER OFFICERS RETIRING
FROM THE COMPANY'S SERVICE.

A Superintending Surgeon on the Prince of Wales Island Establishment, who has been in that station not less than two years, and not less than twenty years in the service, including three years for one furlough, is allowed a pension of £300 per annum. In the case of his not having held that office for two years, his retiring allowance is limited to ten shillings a day.

In the event of any of the Prince of Wales Island Medical Servants being compelled by ill health (duly certified) to retire previous to their having served twenty years, they are granted, in the case of the Superintending Surgeon and Senior Assistant Surgeon, a retiring allowance of five shillings a day, and in all other cases, a retiring allowance of two shillings and six pence a day. If intermediately between the completion of six and ten years, they are granted a retiring allowance of two shillings a day.

An Assistant Surgeon, after the said period of service, who shall not have attained the station of head Surgeon, is allowed to retire on a pension of £150 per annum.

A Chaplain, after eighteen years' service in India, including three years for one furlough, is allowed to retire on the pay of Lieutenant Colonel; after ten years (if compelled by ill health to quit the service) on the half-pay of Lieutenant Colonel; after seven years on the half-pay of Major.

A Chaplain, after eighteen years' service on the Company's Establishment in China, including three years' absence on furlough, is allowed to retire on a pension of £365 per annum; after ten years' actual service (if compelled by ill health to quit the service) upon £200 15s. per annum; after seven years' actual service, upon £173 7s. 6d. per annum.

A Commissary or Deputy Commissary of Ordnance, not being a Commissioned Officer, is allowed to retire on full pay if he has served twenty-seven years in India, of which twelve must have been in the Ordnance Department; twenty-five years, fourteen of which in that department; or twenty-two years, seventeen years of which, in the Ordnance Department.

A Conductor of Stores is allowed to retire on £60 per annum, after twenty-five years' actual service in India.

Every Lieutenant Colonel, Major, or Captain, is allowed to retire with the half-pay of the rank to which he has attained, in case his health shall not permit him to serve in India.

A Lieutenant having served thirteen, or an Ensign nine years in India, including three years for a furlough, may retire on the half-pay of his rank, in case his health shall not permit him to serve in India.

A Subaltern Officer, or Military Assistant Surgeon, having served six years in India, is permitted to retire on the *half pay of Ensign*, if his constitution should be so impaired as to prevent the possibility of his continuing in India.

Every Officer returning on furlough, and wishing to retire from the service must make a declaration to that effect, within twelve months after his arrival in England; and in case of his neglecting so to do, he must, at the expiration of his furlough, either return to India, or be held to have relinquished the service, and not be entitled to retire on pay, unless he has continued to serve in India, from his first arrival, for the space of *twenty-two years*, without having a furlough; in that case he is allowed *two years* before he shall be called upon to signify his intention of retiring, but he can only be allowed the pay of the rank he held at the expiration of twelve months from his arrival in Europe.

Officers retiring from the service, will be considered to have retired from the date of their application, for leave to retire; or from the expiration of two years from the date of their landing in England, whichever shall happen first.

FURLOUGH.

Officers (of whatever rank) must be ten years in India, before they can be entitled (except in case of certified sickness, and as hereafter specified) to their rotation to be absent on furlough, and the same rule is applicable to Assistant Military Surgeons, and Veterinary Surgeons. The furlough to be granted by the Commander in Chief at each Presidency, with the approbation of the respective Governments.

Officers who have not served ten years in India, but whose presence in England is required by urgent private affairs, may be allowed a furlough for one year without pay.

A Chaplain after seven years residence in India, is allowed to come home on furlough and receive the pay of Major. Should he come home from sickness, prior to this period of service, he is allowed the pay of Captain only.

A Conductor of Stores is allowed furlough pay only in case of coming home from sickness.

Officers coming to England on furlough, are required immediately to report their arrival by letter to the Secretary, stating the name of the Ship in which they came, and their address, forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of the return of the Officer to his Presidency.

Officers are required to join the establishment to which they belong at the expiration of the three years furlough, unless they shall have obtained an extension of leave from the Court, six months before the expiration of that period. No furlough will be extended, except in cases of sickness, certified in the manner hereafter mentioned; or in cases, in which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All Officers finding it necessary to solicit a further leave of absence, on account of sickness, must, if resident in London or its vicinity, appear before the Company's examining Physician, Dr. W. F. Chambers, of Upper Brook-street, Grosvenor-square, who will report to the Court of Directors his opinion on the state of such officer's health. And if resident in the country in any part of the United Kingdom, they must transmit with their letter of application for such leave, a certificate according to the following form, signed by at least two Gentlemen, eminent in the Medical profession, viz:—

I hereby certify, that I have carefully examined (state the nature of the case, as well as the name of the party), and I declare, upon my honour, that according to the best of my judgment and belief, _____ is at present unfit for Military Duty, and that it is absolutely necessary, for the recovery of his health, that he should remain at least _____ longer in this country.

Also, previously to such extension of furlough being granted, such further proof shall be adduced by personal examination, or by such other evidence as shall be deemed satisfactory.

Officers abroad in any part of Europe, applying to remain a further time from their duty, on account of sickness, are to furnish a certificate of two eminent physicians, in the above form, with the attestation of a Magistrate, that the persons who signed the certificate are Physicians.

Officers having obtained an extension of furlough to a given period, must at its expiration apply for permission, either to return to their duty or to reside a further time in England.

No Officer who has failed to obtain an extension of furlough, will be considered eligible to return to the service after five years absence under the Act of 33 Geo. III. cap. 53. sect. 70.

Every Officer upon leaving India, will receive a printed copy of the General Order on this subject, published agreeably to the Court's instructions, and the plea of ignorance of the regulations will not be admitted as any justification of the breach of them; Officers therefore, who shall come home on furlough, and who shall not in due time apply, so as to effect their return to the Presidency, to which they belong, within the period of three years from the commencement of their furlough, will subject themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No Officer on furlough can receive pay for more than two years and a half from the period of his quitting India until he returns, excepting Colonels of Regiments, and those of the rank of Lieutenant Colonel regimentally, when promoted to that of Major Generals; the latter are then allowed to draw the pay of their Brevet Rank beyond the above period.

PAYMENTS.—After the first year the Cadet will be required to pay £50 per annum into the Company's Treasury, and the payments must be in advance, towards defraying the Company's annual expense for his board, lodging, and education, and for supplying him with the following articles, viz.

At the close of every vacation, the Cadet must apply at the Cadet Office, for an order for his re-admission, and all sums then due to the Company must be paid up. This order will express that he is only to be re-admitted upon his returning with the same number of books and instruments which he took home with him, and that his linen is put into proper repair.

Cadets nominated for either of the above corps must be 16 years of age, and under 22, unless they have held a commission in His Majesty's service for one year, or in the militia or fencibles for the same period, they are then eligible, if not more than 25 years of age; and they must procure similar certificates and vouchers to those prescribed for Cadets entering the Seminary.

CHAPLAINS.

FORT ST. GEORGE, November 2, 1832.

The Right Honorable the Governor in Council is pleased to direct that the following revised rules for the guidance of Chaplains in their official duties, be published for general information.

1. Every Chaplain shall report his arrival to the Secretary to Government in the General Department, as well as to the chief Ecclesiastical Authority at the Presidency.

2. The Archdeacon, having received his name and academical degree, his letter of orders, his nomination or appointment, and such other testimonials as he may have, will then appoint a day for the Chaplain to attend to make the usual subscriptions and take the necessary oaths previous to his being licensed.

3. Every Chaplain must report his arrival at his station to the Civil Auditor, and to the Archdeacon, and also to the chief Civil or Military Authority of the station, as the case may be.

4. The Bishop's (or Commissary's) license is to be read by the Chaplain (together with a declaration of conformity to the Liturgy of the Church of England) immediately after the 2d Lesson in the morning service, on the first Sunday after his arrival at his station, a certificate of which, signed by two or more of the persons present, is to be forwarded to the Registrar of the Archdeaconry.

5. Every Chaplain shall read divine service every Sunday morning to the Europeans Civil and Military, residing in the Garrison to which he is appointed, when the whole of the morning prayer is to be read, and the sermon to be preached. The evening service, with a sermon, shall also be read whenever suitable provision can be made for that purpose.

6. The Chaplain is to apply to the Commanding Officer, or the chief Civilian in authority, to allot any convenient room which can be spared, for the purpose of divine worship, should no regular Church be established at the station or garrison, to which a Chaplain is appointed; and if no such building or room can be spared, he is to apply to the Commanding Officer requesting that a range of tents may be pitched for this express purpose every Sunday morning.

7. Should the Clergyman receive any hindrance in the discharge of his duty; should the Europeans not attend divine service, or shops be opened on the sabbath day, the Clergyman is to make the same known, (according as the case may be of a civil or a military nature), to the Commanding Officer or senior Civil Servant in writing and request his interference to prevent such irregularity in future; and, in the event of such complaint not being duly noticed by the Commanding Officer or senior Civil Servant, he is to forward a copy of his complaint to the Archdeacon, to be laid before the Right Honorable the Governor in Council.

8. If from indisposition or other cause, divine service should not be performed by the Clergyman at the appointed times, a letter is to be addressed to the Archdeacon accounting for the omission.

9. The practice of baptizing in private houses is to be avoided by the Chaplain as much as possible, and the Clergyman is to attend at the place appointed for divine service on some fixed day and hour in each week, for the purpose of baptizing Soldiers children; however, this is not to be considered as authorizing the Clergyman to decline attending at any time or place to administer private baptism to such infants as may be in a weak, or precarious state of health.

10. Clergymen, having obtained the Right Honorable the Governor's permission to marry those in the higher ranks of life, and that of the chief Civil or Military Officer on the spot, to marry those in the inferior orders, are to direct the attendance of the parties at the Church or place allotted for divine service in canonical hours; and at such time and place, the marriage ceremony is to be performed, except in cases of emergency, and in all such cases, the cause for deviating from this regulation is to be noted on the back of the marriage certificate forwarded to the Archdeacon.

11. In all cases in which a License is not obtained, the publication of banns must be considered as indispensably necessary. The prohibition of a Clergyman of the Church of England from marrying without either Banns or License, does not depend upon the marriage act; but upon the 62d canon of the Church.

12. The permission to marry granted by Commanding Officers to Privates under their command, as connected with the military discipline shall be required as heretofore in such cases, previous to the publication of banns; but such permission cannot be admitted as superseding the necessity of publishing banns, or as justifying the Chaplain in performing the marriage ceremony without such publication, in any case where a License from the Right Honorable the Governor is not obtained.

13. The publication of such banns must be regularly entered in a register for that purpose, in the following form: The Banns of marriage between A. and B. were published for the 1st (2d or 3d) time in this Chapel (or at this station) on Sunday the day of in the year of our Lord

14. Funerals are to be appointed either at ½ past 6 in the morning or 5½ o'clock in the afternoon, except during the hot weather, when they shall be at ½ before six in the morning and the same hour in the evening; and the Clergyman is to attend at the latter time if he receives notice of a funeral before 3 o'clock P. M., but if the notice ar-

fires after that hour the interment is to take place on the morning following: cases however may occur, which may require a deviation from this general rule.

15. Attention is to be paid by Clergymen to those seasons set apart for the fasts, festivals and other solemnities appointed by the Church, and they are particularly to use their influence in preventing public amusements in the holy week (commonly called Passion Week.)

16. It is a bounden duty of every Clergyman to make frequent visits to the sick Europeans in the hospital, to pray by those who wish for such consolation in their last moments, and (where it may seem proper) to administer the Sacrament of the Lord's Supper.

17. All entries in the Registers of Baptisms, Marriages and Funerals are to be made by the officiating Minister in his own hand, and on the day when the office is performed.

18. All marriage certificates of Europeans, being Soldiers, or persons employed in the Military department, under the rank of Commissioned Officer, shall specify distinctly the birth of the female, whether European, Indo-Briton, Native, &c.

19. Attested copies of the Registers of Baptisms, Marriages and Funerals, must be transmitted regularly every half year, to the Registrar of the Archdeaconry, viz. up to the 31st May and the 30th November in each year.

20. The Chaplain of every station where any of His Majesty's Regiments are stationed, must forward to the Registrar of the Archdeaconry for transmission to the Chaplain General's Office, half yearly and for any broken period that may occur previous to his leaving the station on which he is employed, a copy duly signed by himself and by the Officer in command of the station, of the Regimental Registers of Marriages and Baptisms now kept in conformity with the general regulations on this subject.

21. The size of Monuments hereafter to be erected in the burial ground of any out-station, shall be limited to seven feet in length by three and a half in breadth.

22. All communications from the Clergy are to be addressed to Government through the Archdeacon in order that he may make such remarks thereon as he may think proper.

23. A Chaplain, when directed to visit the out-stations of his district periodically, is permitted to draw a travelling allowance at the rate of 200 rupees per mensem, to be calculated at the rate of one day's allowance for every ten miles, allowing for a halt on the 7th day: provided however, that the allowance drawn on this account shall in no case exceed 200 rupees per mensem. The documents required in support of the travelling expenses of Chaplains will be—1st, the order or authority of the Venerable the Archdeacon for proceeding on their periodical visitations; and 2dly, their own declaration on honour that the journey so authorized has been performed.

24. A Chaplain attached to a Military station on applying for leave of absence must state that the Officer Commanding concurs in the measure, but the application must in every case be made thro' the Archdeacon to the Government.

25. No Clergyman, appointed to officiate as a Chaplain to any particular station, shall on leave of absence, from that station or otherwise, indirectly take upon himself the professional duties belonging to a Clergyman of a different station, while such Chaplain resides on the spot or is near enough to be communicated with (as occasion may require), and is capable of performing such duties, unless his consent be previously obtained.

26. Any Chaplain who may be absent from his station without leave, shall be considered to have forfeited the whole of his allowance for the period of his unauthorized absence, unless the penalty be expressly remitted by Government; and any Chaplain exceeding his leave, shall be held by the Civil Auditor to be absent without permission for the time of such excess.

27. Any Chaplain leaving his station, whether with or without the orders of Government, shall be bound to report the circumstance to the Civil Auditor.

28. Any Chaplain who may be removed from his station to another, shall in like manner report to the Civil Auditor, the dates of his departure from the one and of his arrival at the other, and the Civil Auditor is restricted from passing the Bill of any Chaplain appointed to a new station for the allowances belonging to such station (without the special orders of Government) until he shall have received a report of his arrival at the place of his appointment.

29. Leave of absence, when solicited for the purpose of visiting any place on the continent of India, shall not be granted for a longer period than six months, but will be extended at the discretion of Government, on due and sufficient cause being shown.

30. Any Chaplain desiring to visit the Presidency with the intention of making a voyage to sea, for the benefit of his health, or otherwise, shall be required distinctly to specify, in his application the period of leave necessary for the first purpose, at the expiration of which renewed leave shall be given, for periods not exceeding one month, until he finally avails himself of the further permission to quit the Presidency, on which occasion the vessel on which he embarks must be duly reported.

31. Any Chaplain arriving at the Presidency, whether from the interior of the country or from abroad, shall report his arrival to the Secretary to Government, in the General Department, as well as to the Chief ecclesiastical authority at the Presidency.

32. Any Chaplain returning to the Presidency after having made a sea-voyage, for the recovery of his health, or otherwise, shall (unless the contrary is specially sanctioned by Government) be required to rejoin his station within the time that may be prescribed for travelling to the station to which he stands appointed.

33. One day will be allowed for every ten miles of distance as recorded in the Office of the Quarter Master General, a week being given over and above this allowance for preparation for the Journey. If under special circumstances a longer period shall be found necessary, an application may be made to Government for an increased allowance of time or leave of absence for the excess.

34. Chaplains absent from their station with the leave of Government, whether on account of sickness, or of their private affairs, for a period not exceeding one month in the year, shall not be subject to any deduction from their allowances.

35. Chaplains absent from their station on account of private affairs for a continuous period exceeding one month in the year, shall forfeit $\frac{1}{3}$ d of their allowances during the whole time of their absence.

36. Chaplains absent from their stations on certificates of ill health for a continuous period exceeding one month in the year, if within the limits of the Presidency shall forfeit $\frac{1}{4}$ th of their allowances during the whole time of their absence; Chaplains proceeding to sea, or beyond the limits of the Presidency, on certificates of ill health for a continuous period exceeding one month in the year, shall forfeit $\frac{1}{4}$ th of their allowances for one year and $\frac{1}{8}$ for the next six months of their absence.

37. Chaplains absent from their station, whether on account of sickness or private affairs, for a period exceeding 18 months, shall forfeit their appointment, and thereafter receive only an allowance of 244 rupees per mensem, until they obtain a new appointment.

38. A Chaplain officiating for an absentee will receive the allowances stopped from the absentee, when the stoppage does not exceed 200 rupees per mensem; but in all cases when the deductions exceed that sum, the surplus will be credited to the account of civil charges.

39. All applications for change of station must be made direct to the Right Honorable the Governor, or his Private Secretary.

40. The Chaplains are amenable to the Ecclesiastical tribunals for such offences only as would render the Clergy of the Established Church amenable to the Ecclesiastical tribunals in England, and for all other offences they are liable to be tried as all other Europeans in India are, by the ordinary tribunals of the country. If however, the offence should be committed out of the jurisdiction of the ordinary court, and in places where the rest of the community are subject to Military law, in such a case, and in such a case alone, they are subject also to Military law, for all offences of temporal cognizance.

41. On leaving the Archdeaconry, it is the duty of every Chaplain to apply to the Archdeacon for testimonials under the Episcopal Seal. If testimonials are also obtained from two Clergymen in the Archdeaconry, they should be countersigned by the Archdeaconry.

**EXTRACT of a GENERAL LETTER from ENGLAND in the COMMERCIAL DEPARTMENT,
dated 7th September 1808.**

Para. 229.—In our Letter of the 31st October 1799, we informed you that we had appointed Messrs. Hyde and Marter, Clerks in our Accountant's Office, to act as Agents, in the clearance of Baggage, Wines and Presents from the Company's Warehouses, and that we had been induced to appoint our own Servants to conduct this business, in order that they might be accountable to us for the propriety of their conduct.—The increase which has taken place in the Civil and Military Establishments of our several Presidencies, and the consequently augmented number of persons returning to Europe, have determined us to make a separate department for the purpose of clearing Baggage, Wines and Presents, and we have appointed Mr. William Marter, and Mr. William Evans to be Warehouse-keepers of Baggage, subject to our immediate inspection, and control, and we have made such arrangements with his Majesty's Board of Customs for ascertaining and paying the duties of Baggage, &c., as will ensure the greatest possible dispatch in the delivery of the articles to the respective Proprietors.

230. We have also sanctioned a table of fees and allowances to be received for the discharge of this duty, and for reimbursing the expenses attending it, and we have prohibited the Baggage Warehouse-keepers from receiving any other than the authorized allowances, upon pain of our severest displeasure.

231. As we have erected this establishment for the sole purpose of the convenience of our Servants and others who may return to Europe, we direct that our intentions in this respect be made public, and be constantly affixed up in the Export Offices of our several Presidencies, and that it be signified to all our Servants returning to Europe, that it is our desire that they apply to our said Warehouse-keepers, Messrs. Marter and Evans, to clear and deliver them their Baggage, Wines and Presents, as we have directed Messrs. Marter and Evans, to transact every branch of business connected with this department, which will render the Agency of all other persons unnecessary.

232. Passengers arriving in India are liable to inconvenience from being ignorant of the law which prohibits Calicoes being printed, painted or stained or dyed, and also silk goods from being worn or used in this country, and such goods although made into apparel are of necessity taken out of their Baggage and detained by the Officer of Revenue; we direct therefore, that notice hereof be made generally public, and further that Napkins, &c. which contain a coloured stripe however small, are considered to be prohibited, and cannot be passed in England as part of their baggage.

GOVERNMENT ADVERTISEMENT.

The Right Honorable the Governor in Council having reason to apprehend that the existing Law against the receipt of presents from Native Princes and other Natives of *Rank* is not sufficiently understood, is pleased to publish for general information the following Extract from an Act of Parliament passed in the 33d year of the Reign of His present Majesty. It is further explained that the provisions of the Statute are not only applicable to all persons, Civil and Military, in the Service of His Majesty, or of the Honorable Company, but also to the different members of their families residing in India.

LXII. And be it further enacted, That the demanding or receiving any sum of Money, or other valuable thing, as a gift or present, or under colour thereof, whether it be for the use of the party receiving the same: or for, or pretended to be for the use of the said company, or of any other person whatsoever by any British subject, holding or exercising any Office or employment under his Majesty, or the said United Company, in the East Indies, shall be deemed and taken to be extortion and a misdemeanor at law, and shall be proceeded against and punished as such, under and by virtue of this Act, and the offender shall also forfeit to the King's Majesty, his Heirs and Successors, the whole gift or present so received, or the full value thereof.

LXIII. Provided always, and be it further enacted, that the Court of Jurisdiction before whom any such offence shall be tried shall have full power and authority to direct the said present or gift, or any part thereof, to be restored to the party who gave the same or to order the whole, or any part thereof, or of any fine which the court shall set on the offender, to be paid, or given to the Prosecutor or Informer, as such court in its discretion shall think fit.

LXIV. Provided always and be it enacted, that nothing herein contained shall extend, or be construed to extend, to prohibit or prevent any Person exercising the profession of Counsellor at law, Physician or Surgeon, or any Chaplain, from accepting, taking, or receiving fees, gratuities, or rewards (*bona fide*) in the way of his profession only.

FORT WILLIAM; Public Department, the 31st December 1810.

The following Regulations having been adopted by the Governor General in Council, under the authority and direction of the Honorable Court of Directors, they are now published for general information.

2d. The Governor General in Council has been pleased to authorize the Accountant General and the Sub-Treasurer for the time being, to act under the responsibility of the Honorable Company, as agents (for the purposes hereinafter mentioned) for the public creditors of this Government, whether residing in Europe, or elsewhere.

3d. The Officers abovementioned are authorized to receive charge of, and to grant, receipts in duplicate, for any Obligations or Loan Acknowledgments of this Government, which the Proprietors may wish to deposit with them. No Note is to be received in deposit, which shall not appear to be made out in the name of, or be regularly endorsed-

ed, to the Persons depositing it. Persons desiring to deposit their Government Securities shall make their application to the Accountant General and Sub-Treasurer in the form hereunto subjoined, No. 1; and the receipt of those Officers will be given in the Form No. 2.

4th. The Officers abovementioned will receive the Interest on any Government Paper which may be deposited with them.—And will, according to the instructions of the Proprietor, remit the amount, either to England in Bills to be drawn on the Honorable Court of Directors, if the same shall be payable in such bills by the terms of the loan; or to the Presidencies of Fort St. George or Bombay by drafts on the Public Treasuries of those Presidencies, or to any of the Stations subordinate to this Presidency, by drafts on the Collectors or on the Residents at Delhi or Lucknow, according to the rates of exchange at which Government may draw at the time—or they will pay the amount at the Residency to any person nominated by the Proprietor to receive such payment. The instructions as to the manner in which the interest is to be paid must be made out according to the Forms hereunto subjoined, Numbers 3, 4 and 5, which are adapted for the several cases above specified. The Proprietor will be at liberty to substitute one of these modes of receiving the Interest for the other, as often as he shall think fit; provided that the fresh instructions be delivered at the Treasury one month before the day on which the Interest falls due. Persons having more Notes than one in deposit may give separate instructions regarding the interest on each Note, but the whole of the interest on each Note must be received in the same manner and at the same time.

5th. When the Principal of any Government Paper so deposited shall become payable, the abovementioned Officers will, according to the instructions of the Proprietor, either pay the amount, with the Interest due upon it to such person as shall be appointed to receive the payment; or they will re-invest it into any other Loan, to which it may be subscribable at the time, or in the purchase of other Obligations or Loan Acknowledgments of this Government in the market, at the current price of the day.—The instructions for these purposes must be made out according to the forms hereunto subjoined, Nos. 6, 7 and 8, which are adapted to the three several cases above specified. The Proprietor may at any time substitute one of these modes of disposing of the Principal for the other, provided that the fresh instructions be delivered at the Treasury one month before the day on which the Principal falls due. Persons having more Notes than one in deposit, may give separate instructions regarding each Note, but the whole amount of each Note must be disposed of in the same manner and at the same time.

6th. If any Loan be opened by the Government of Fort William, into which the Paper deposited may be receivable, the Officers abovementioned are authorized to subscribe the Paper so deposited to such Loans, upon receiving the instructions of the Proprietors for that purpose; although the Notes may not be in course of payment. Instructions for this purpose must be made out according to the Form No. 9.

7th. The Officers abovementioned are authorized to receive remittances, in Government Bills only, from individuals desiring to purchase the public Securities for deposit with them (provided such Bills shall be payable at the General Treasury, and shall amount to 1,000 Sa. Rs.) and to invest the amount, according to the instructions of the Proprietor, in the Government Securities, either by subscribing the amount to any Loan which may be opened for the receipt of Cash, or by purchase in the market at the current price of the day: Instructions for this purpose shall be made out according to the forms hereunto subjoined, Nos. 10 and 11.

8th. The Officers abovementioned are further authorized to invest the amount of interest due on paper deposited with them in the Government Securities, in either of the modes mentioned in the last clause, upon receiving the Proprietor's instructions for that purpose; such instructions must be made out in the Form hereunto subjoined, No. 12.

9th. The same Officers are further authorized, at any time, on receiving proper authority and instructions from the Proprietor for that purpose, to indorse any one or more notes deposited with them, as Attornies to the Owner, to such person as he shall direct, or to sell the same on the Owner's account at the current price of the day; and to pay over the proceeds in Cash at the Treasury to such person as the Proprietor may appoint to receive the same, provided that the whole amount of each note sold, shall be payable in one sum, and to the same person. But they are prohibited from re-investing the proceeds of Papers so sold, or from disposing of it any other manner than by such payment at the Treasury, as abovementioned, to the order of the Proprietor. Any fees, which may have become due according to the rates hereinafter prescribed upon the Paper required to be indorsed, are to be paid before the indorsement is made; or in cases of the sale of the paper, the fees shall be deducted from the amount proceeds before it is paid over. The Power of Attorney to Indorse, or to Sell, must be made out according to the Form No. 13; the direction to indorse according to the Form No. 14; and the direction to Sell, and the order to pay, according to the Form No. 15.

10th. If Government should at any future period grant a remittance of the Principal of any Paper deposited under the terms of this Advertisement, the Officers abovementioned will remit the Principal upon receiving instructions from the Proprietor to that effect, such instructions must be made out according to the Form No. 16. The Proprietor may at any time withdraw the Government Securities deposited, or any part of them, from the charge of the abovementioned Officers, and such Securities will be delivered up to the Proprietor himself, or to any other person whom he may authorize to receive them, upon payment of such fees as may have become due to the

Accountant General and Sub-Treasurer, according to the rates hereafter specified, upon the paper so required to be delivered up. The authority to receive deposited Paper, must be made out according to the Form No. 17.

12th. In each of the cases in which the Officers abovementioned are authorized to invest money in the Public Securities, it is to be understood, that they will invest as nearly as possible, the whole amount, but that they are in no case and upon no account to exceed it. Such fractional sums as may remain in their hands above the amount invested, will be payable on demand at the Treasury to the order of the Proprietor, such order is to be made out according to the Form No. 18.

13th. The full Postage must be paid on all letters directed to the Officers abovementioned, and the full postage on all letters from them will be charged to the persons to whom they are addressed. All letters addressed to them are to be superscribed in the following manner :

Such packets shall be endorsed Law Papers, Accounts, &c. as the case may require.

10.—It shall be at the discretion of the Post Master General and of the Officers in charge of the Subordinate Post Offices to forward by Dawk to Stations to which there may be no banghy, parcels not containing letters and not exceeding 80 Rupees in weight at the Banghy rates of postage.

Note.

Note.

The weight of private parcels has been restricted to 280 Rupees, and the size, to the cube of 9 inches.

3.—The payment of letter postage having been evaded by transmitting a number of letters under one cover by Banghy, it is required that parcels be left open at the ends, or they will be liable to be examined if suspected to contain letters.

4.—Every precaution is adopted for the security of letters and parcels transmitted by Dawk and Banghy; but it is proper to notify, that the Post Office will not be held responsible for their safety.

GENERAL POST OFFICE, MADRAS, 4th September 1823.

NOTICE.

To obviate the delay which will sometimes unavoidably happen in the delivery of letters when due information regarding their disposal, is not lodged at the General Post Office, the Post Master General requests Officers of the Naval, Military and Civil Services, and other persons arriving at the Presidency, or departing from it, to notify to him, in writing, the places to which they wish letters for them to be sent.

J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, 2d June 1824.

Notice is hereby given, that, on the payment of inland postage, letters are received at this Office for transmission by Sea from the other Presidencies, or from any distant Ports to which there are the means of conveying them from Madras.

J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, 5th July 1824.

Persons despatching letters from out-stations for transmission by sea from this Presidency, will, on application at the Post Offices into which their letters are put, obtain, after the lapse of a sufficient period for procuring them, stamped acknowledgments for the receipt of their letters at the General Post Office.

Stamped chits bearing the names of the places to which letters are directed with the size and amount of postage, will be furnished on delivery into the different Post Offices of letters, whether for transmission by sea or otherwise; or if addresses are copied into books, or transcribed on separate pieces of paper, and sent with letters, they will receive the impressions of the proper stamps, and have the size and postage noted upon them.

J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, 31st August 1824.

Notice is hereby given, that the Honorable the Governor in Council has been pleased to resolve, that henceforth the practice of sending letters by the Dawk runners outside of the Mails, shall not be permitted, except with respect to letters on the public service to or from troops on a march, and that no detention of the runners shall be considered to be justifiable under any circumstances.

J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, 27th June 1826.

With reference to the fourth rule of the Post Office Regulations, under the head of Bangly Department, whereby it is declared, that the Post Office will not be responsible for the safety of letters or parcels transmitted by Dawk or Bangly; it is hereby further notified under the authority of the Honorable the Governor in Council, that, while due care will be taken to prevent losses, letters or parcels known to contain pearls, precious stones, money in coin, or bullion, will not be received for transmission through any of the Post Establishments.

J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, 31st October 1826.

Notice is hereby given, that, under the authority of the Honorable the Governor in Council, Letters addressed to the Accountant General at this Presidency, containing Public Acknowledgments for Subscriptions to the Loan of the Supreme Government opened under date the 18th of August 1825, which the Holders wish to exchange for Promissory Notes of that Government, will be allowed to pass free of postage, provided the words "Loan Acknowledgment (or Acknowledgments)" are superscribed upon them.

J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, 4th July 1827.

Notice is hereby given, that whereas many Letters for persons at Out-Stations are received at this Office, from England, addressed to the care of Mercantile Houses or individuals at the Presidency, and whereas the delivery of such Letters to the parties to whose care they are directed, is, generally speaking, calculated to occasion much needless trouble, as well as to delay the receipt of the Letters by the persons for whom they are ultimately designed; the rule which it is intended to follow respecting such Letters in future is, that they should be sent direct to the Persons to whom they are addressed as principals, except where there are special instructions for their delivery to the parties to whose care they are superscribed.

(Signed) J. A. DALZELL, P. M. G.

GENERAL POST OFFICE, MADRAS, January 9, 1832.

Notice is hereby given, that the hours fixed for the reception of letters, both public and private, into the General Post Office, Madras, are from 10 A. M. till 5 o'clock P. M.

There is only one general delivery of Letters daily, for which purpose the Peons quit the Post Office precisely at 10 A. M.; but when Mails arrive after the distributing Peons have left the Post Office, a second delivery of Letters for such persons only as reside within the Fort and Black Town, takes place about 4 P. M.; except on Sunday.

Persons receiving letters are required to pay the Postage marked upon them whatever may be the amount, after which, any official complaint that may be preferred to the Post Master General of overcharge will be duly enquired into, in which case as also in that of complaints for delay in the delivery of letters, the parties to whom they are addressed, are requested to furnish for the Post Master General's inspection, the backs or envelopes of such letters bearing the Post Office stamp.

(Signed) N. WEBB, P. M. G.

GENERAL POST OFFICE, MADRAS, March 8, 1832.

Many instances having occurred, owing to the inattention of parties forwarding Bank Notes through the Post Department, to the precautions recommended in the subjoined notification, dated the 10th July 1827, of Bank Notes having been abstracted from letters, and the same having given rise to fruitless correspondence, the public are hereby warned against the practice of enclosing *whole* Bank Notes in letters; as also of covering such letters with China or other thin paper, the ends of which, are frequently injured, and the enclosures easily taken out.

The Notes may be divided in the manner hereunder described.

(Signed) N. WEBB, P. M. G.

GENERAL POST OFFICE, MADRAS, 10th July 1827.

The Post Master General is induced to recommend to the Public as a measure not only advisable for security, but highly proper in other respects, that when remittances in Bank Notes are made through the Post Department, the Notes should be sent in halves, (each half having the number [letter], date, and value of the Note with the signature of the Treasurer or Cashier of the Bank upon it) and acknowledgment obtained for the parts first transmitted before the others are forwarded,

(Signed) J. A. DALZELL, P. M. G.

(Signed) N. WEBB, P. M. G.

FORT ST. GEORGE, March 13, 1832.

The Right Honorable the Governor in Council is pleased to direct that whenever any Public Officer, Civil or Military (except the Officers of the Commissariat when they are required to forward accounts) may have occasion to despatch more than one official communication to the same office by one day's post, the whole shall be forwarded under one envelope—a narrow binder being placed round each of the letters enclosed and each being separately numbered. When the packet amounts to 21 Rupees weight, a separate parcel must be made up, and each superscribed “by Tappal,” otherwise it will be forwarded by Banghy.

The object of this order is first, to save the needless trouble and delay arising out of the necessity which now exists of registering, marking, &c. each letter separately, at the Post Offices from and to which the Mails are despatched; secondly, to save the unnecessary trouble and expenditure of Stationary, in making up so many separate covers in the Offices from which they issue: and, thirdly, to relieve the Tappals of a great and unnecessary weight of covers and sealing wax and frequently of wax cloth.

GENERAL POST OFFICE, Madras, October 2, 1832.

With reference to the Government Advertisement of the 27th July last, inserted in the Fort St. George Gazette, Page 553, directing that until further orders the postage on the transit of all newspapers through the Territories of this Presidency should be restricted to one half the regulated Postage of a single letter: Notice is hereby given, that all newspapers not exceeding the weight of three Rupees received by sea or land, or from the Editors at Madras, for transmission to any station where there is no Banghy will be forwarded by Hawk at half the regulated postage of a single letter, but if exceeding the weight of one Rupee shall, in all practicable cases, be forwarded by Banghy; the like charge of half single letter Postage being super-added on every additional 3 Rupees weight as far as 21 Rupees; beyond which, they will be charged with the regulated Banghy Postage. Newspapers, opened at Madras by authority from the parties to whom they are directed and thereafter forwarded to the Post Office for transmission to their address, will, if weighing one Rupee be subject, as heretofore, to single letter postage, and the same must be paid in advance.

PASSPORT REGULATIONS.

THE Right Honorable the Governor in Council having reason to be satisfied of the total inefficiency of the present practice of regulating Passports, either to prevent the passage of unauthorized travellers, to trace the route and the pretensions of those of doubtful character, or to ensure the free progress of those who are duly authorized, has been pleased to establish the following orders, for the regulation and control of all Passports granted under the Presidency of Fort St. George.

1st.—That from and after the first of June next, the Secretary of Government in the Public Department shall be charged with the general control and direction of all Passports granted within the Territories of Fort St. George.

2d.—That Passports of the prescribed form, capable of being recognized by Natives as well as Europeans, in sewed Books with a Cheque Margin, for the insertion of the name of the person and No. and date of the Passport (for the purpose of preventing forgeries by comparison when returned) shall be issued by the Secretary of Government to all persons who shall be authorized to grant them, viz. To the Resident in Mysore, and to all Collectors for their respective Districts, with an exception of Sea Ports, where there is a Commercial Resident, who will always regulate the Passports of the port where he resides; to the Town Major of Fort St. George for Military persons belonging to that Garrison; to the Adjutant General of the Army, for all other Military persons leaving the Presidency; and to such Officers Commanding Military Stations as shall be authorized to grant Passports. These stations shall be determined in the first instance, and from time to time when any changes of Stations may occur, by the Secretary of Government in communication with the Adjutant General of the Army. The Secretary of Government will himself regulate the receipts and issue at the Presidency of all Passports to Persons not Military.

3d.—That all persons authorized to grant Passports shall keep a Register in a prescribed Form (blank books of which will be likewise transmitted) of all Passports received, and another of all Passports issued.

4th.—That all Travellers, on arriving at a station, shall deliver their Passport to the proper Officer, who shall register its receipt in the same manner as on granting one, and if the bearer proceeds farther, shall issue a new Passport in exchange, noting on the old one the date of its receipt, and at the end of each month sending by the Post all Passports received to the person by whom they appear to have been granted.

5th.—That the Secretary of Government in the Public Department shall keep a General Register of all Travellers and Passports granted, to enable him to correct which, all Public Officers, authorized to grant or receive Passports, shall transmit to him monthly, a copy of their Register of Passports granted and received during the month, and shall be held responsible for the application of the exact number of Blank Passports with which they have respectively been furnished by the Secretary.

6th.—That Passports to Military persons shall be granted by Military Officers exclusively, and to all other persons by Civil Officers exclusively; but in cases of urgency, a Military Officer in the absence of the Civil authority, and a Civil Officer in the absence of the Military authority, may pass a Traveller to the next Post or Station, by endorsing his Passport with the words "Pass to _____," noting the date; entering in his register the particulars of the Passport, in the same manner as if he had granted a new one; and entering the word "endorsed" in the column of remarks.

7th.—Any Traveller stating that he has lost his Passport shall invariably be detained, until a duplicate shall have been obtained.

8th.—Public Officers, having received a Passport authorizing them to *travel post on the Public Service*, shall not be compelled to wait for the exchange of their Passports, nor be subjected to any part of these Regulations which involve delay.

9th.—All Public Officers authorized to grant or receive Passports, shall report to the Secretary of Government any irregularity or deviation from the established rules which may come under their observation, together with all remarks regarding the conduct and apparent views of Travellers, which may appear proper and necessary to be communicated for the purposes of farther inquiry. And all Public Officers authorized to issue Passports are also empowered on sufficient information of incorrect conduct or improper views, to refuse a fresh Passport for the continuance of a journey already commenced: (reporting the detention to the Secretary of Government by the post of the day) or even to restrain until further orders the person of the Traveller, if such a measure shall in their judgment appear to be necessary.

10th.—For the convenience of official arrangement, all letters relating to Passports shall be superscribed "Passport Service."

MEMORANDUM.

Exclusively of the Regulations which shall be published for general information, it may be proper that all persons authorized to grant Passports, should be furnished with instructions for their guidance in granting or refusing them.

The following are supposed to embrace all the material considerations.

1st.—To guard against the intrigues of foreigners in the interior of the country either among our own feudatories or subjects, or at the durbars of independent Native Powers,

constitutes the main object of these regulations. To prevent foreigners from acquiring local information, though an important, is but a secondary consideration; and lastly, these regulations are intended to restrict the settlement of Europeans in India by indirect means.

2d.—No Passport of any Foreign Governor can be considered of validity to pass a Traveller a single mile through the Company's possessions, but Public Officers stationed near a foreign settlement, will concert with the Foreign Governor, or other constituted authority, according to local circumstances, the means of furnishing Travellers from such Settlement with the requisite English Passports on proper occasions.

3d.—The routes of Foreign Travellers for commercial purposes, will be generally by the sea-side, and every proper facility should be afforded to that line of communication. But no foreigner must on any pretence be furnished with a passport to travel inland, or even to deviate from the road nearest the shore, without the special authority of Government.

4th.—English subjects, who are not in His Majesty's or the Honorable Company's Service, should in like manner be restricted to the road nearest the shore.

5th.—All Public Officers who may be authorized to grant Passports, will, as soon as may be practicable after the receipt of these instructions, transmit to the Secretary of Government, descriptive lists of all Europeans not in His Majesty's or the Honorable Company's Service, residing within the limits of their respective authority; with their opinion regarding the expediency of licensing the farther residence of each individual. The Secretary will return certificates for such as the Governor in Council may think proper to license, and all Europeans not in the Service, who shall not possess such certificates on the "1st day of August 1802" shall be sent to the Presidency for the purpose of being embarked for England.

6th.—From and after the above date—no Passport shall be granted to any European not in the Service, who resides or states himself to reside at any English port or station, nor to any British subject residing at a foreign settlement, who does not possess such certificate of license; but Mariners or Traders, whether British or Foreign, not resident in India, who may desire to pass from one port to another for commercial purposes shall be furnished with Passports without hesitation.

N. B.—The certificates should include a description of the person, and should grant conditional permission to reside, at the town of " " subject to be sent to Europe at the shortest notice, whenever the Government shall think fit.

FORT ST. GEORGE, 21st April 1802.

NOTICE is hereby given, that from and after the 1st day of July next, no European person of whatever rank, description, or country, will be permitted to travel through the Company's dominions subject to this Presidency, unless he shall be regularly furnished with Passports for that purpose.

The only exception, which the Right Honorable the Governor General in Council, has been pleased to make to the foregoing resolution, is in favour of Officers Commanding Parties of His Majesty's or the Honorable Company's Troops.

All persons about to travel are accordingly required to take out a Passport, from the Collector of the district in which they may reside, or in places where there may be no Collector, from the Commanding Officer of the nearest garrison, which Certificates or Passports shall be produced by the next Collector or Commanding Officer, who are authorized to cancel it if necessary, and to issue a fresh Passport.

2. The only exception which the Right Honorable the Governor in Council has been pleased to make to the foregoing resolution, is in favor of Officers Commanding Parties of His Majesty's or the Honorable Company's Troops.

3. For the more strict execution of the order, Notice is hereby further given, that a reward of Ten Pagodas will be paid to any person, who shall take up and bring into the nearest garrison, any European Deserter, or Vagrant, of any description.

4. The following are the Officers by whom passports will be issued on application. By the Public Secretary to the Government, to persons not Military.

MARINE DEPARTMENT.

The following Extract of a Letter from Lieutenant John Strover Criddle, 2d Assistant to the Marine Surveyor General addressed to the Secretary to the Marine Board at Fort William, under date the 4th of September last, is published for general information.

"With respect to the Armegon Shoal, there is no Flag Staff at that place, nor can Armegon Hill be discerned from the Southern end of the Shoal, and it frequently happens, that the Pulicat Hills are obscured for many days—Soundings then become the only guide. I therefore recommend, that no Ship proceeding down the coast should come under 12 fathoms, she will then be from 2 to 3 miles off the Shoal, consequently out of danger."

The following directions for Vessels approaching the Roadstead of Calingsapatam extracted from the Survey of the local Marine Officer, are published for general information.

In the S. W. Monsoon, the Flag Staff to bear W. by N. $\frac{1}{2}$ N. in 7 or 8 fathoms, and in the N. E. Monsoon, the Flag Staff to bear West in 8 fathoms, to give room for clearing a reef of rocks, on which the sea breaks at low water, a little to the Southward of the Roads; which may be known by several Rocks on the Beach and in the Surf.

Vessels coming along shore from the Southward should not come under 10 fathoms, till the Flag Staff bears N. W. by W. : when they may haul in for less water—Anchoring to the Southward of the above bearings, Ships will have rocky ground.

From the Northward of the Rocks on the beach, and in the Surf, the reef runs out about $\frac{1}{2}$ of a mile, in an E. N. E. direction.

REGULATIONS.

OF

The Second Madras Laudable Society.

ARTICLE I.—The object of this Association is to provide a Fund for the Insurance of Lives. This Fund is to be portioned into shares: and an individual may subscribe for a certain number of shares, either on his or her own life, or on the Life of any

other individual. In the former case the general Estate of the deceased, or such person or persons as he or she may by will or assignment have appointed, shall benefit in the event of a lapse; in the latter, the person who may have subscribed on the Life of the deceased, shall benefit to the extent of the shares subscribed for, unless, in either case, such shares be specially declared at the time of the subscription to be for the benefit of any other person or persons, or be subsequently made over according to the form hereafter prescribed, for the benefit of any other person or persons in which case such person or persons shall be entitled to benefit in the event of a lapse, and no other.

ARTICLE 2.—In the case of a person subscribing on the life of another, the party subscribing, and not the party on whose life the subscription is made, shall be considered a member of the Society, and having a voice in the management of its concerns. Co-partners or other bodies of individuals may hold one or more shares jointly on any given Life, either for their own benefit or for that of others, but in such case, the parties writing in the Subscriptions shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by the deputation of one of their number on all matters thereto relating.

ARTICLE 3.—The great principle of this Society is the equal division of its accumulated funds among the parties entitled to benefit by lapse of Lives subscribed on, according to the number of shares which those parties may respectively hold.

ARTICLE 4.—The Second Laudable Society shall commence on the 1st January 1832, and shall close on the 31st December 1834, at Midnight.

ARTICLE 5.—Not more than Five Shares can be subscribed for on any one Life whether those shares be held by one or more individuals.

ARTICLE 6.—Persons shall be at liberty to subscribe for half or quarter shares either on their own lives or on the lives of others, and in case of lapse, the Estate of the deceased, or the parties for whose advantages the subscription is declared to be or who may have become entitled to such advantages by Will or Assignment, shall benefit by the Funds in a like fractional proportion.

ARTICLE 7.—The following are the rates of Subscription to be paid half yearly on each share, Half share, and quarter share according to the Agents of the parties whose Lives are subscribed on, at the time of admission into the Society, viz.

reference to the circumstances of situation and distance, the interval which may have
elapsed between the date of Certificate and Affidavit of health, and the time of their
presentment be reasonable or otherwise and to admit or reject such Certificate and
Affidavit accordingly. In no case however is the party subscribing to have any claim
on the Funds of the Society, in the event of the life lapsing between the date of the Certificate, and the date on which the Applicant may be admitted a Member, unless where
the Directors may at the instance of such Applicant, have originally permitted the subscription to take effect from the date of the Certificate and Affidavit of health, which it
shall at all times be in their discretion to do, on the arrears of subscription being paid
up. In the event however of a person dying between the dates of his Certificate and
Affidavit of health and his admission, and the Insurance of his life was not effected
from the date of the Certificate and Affidavit, the amount of premium paid for such
insurance shall be refunded.

ARTICLE 18.—No Subscription on any life shall be considered as entitling the party
or parties concerned to benefit by the Society, until the life subscribed on shall have

application accompanied by a New Certificate and Affidavit of Health.

ARTICLE 19.—All Subscriptions (except the first) which is to be paid on Admission

shares.

ARTICLE 20.—Any Member shall be at liberty at any time, to pay up his Subscription for the whole unexpired period between the time of such payment, and the close of the Society, or for any part thereof; and, in the event of the lapse of the life subscribed on, such Member or his representative shall be entitled to receive back any part of the subscription money so paid up, which would have not been due at the time of the lapse taking place, forfeiting, however, to the Society all interest which may have intermediately accrued thereon.

ARTICLE 21.—No subsequent increase of Shares on any Life shall be allowed except on a fresh application to be again approved of by the Directors, and accompanied by a Certificate and Affidavit as above. The Subscription on the additional Shares to be according to the Age of the Party at the time of making the new application.

ARTICLE 22.—A Member desiring to transfer his Interest in any Share or Shares which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original Certificate, which endorsement however shall not be valid, until the Certificate bearing the same shall have been produced to the Secretaries and the transfer duly registered by them in a General Book of Registry to be kept in the Office of the Society.

ARTICLE 23.—As often as a sum exceeding Rupees One thousand shall be collected it shall be laid out in the purchase of Government Paper. All Public Securities purchased for the Society shall be specially endorsed to three or more of the Directors, and the Interest only shall be made payable to the Secretaries and Treasurers.

Should the Directors think, however, that the Funds will not allow of an immediate payment to this amount, then such sum only shall be advanced as they may deem proper; and the balance of the prescribed advance shall be paid so soon as the Directors shall be of opinion that the Funds will safely admit of it.

ARTICLE 25.—At the expiration of the Society on the 31st December 1834, it is proposed, that a New Society, but subject to such further alterations as experience may suggest, shall be immediately instituted, into which Society all Members then holding shares on unexpired Lives, in the Second Madras Laudable Society shall be at liberty to transfer those shares without any renewed Certificate of health, in consideration of a sum of money to be paid to such new Society out of the Funds of the Second Madras Laudable Society. To entitle Members of the Second Laudable Society to transfer the shares held by them into the ensuing or Third Laudable Society, no regular form of Application shall be necessary; but a Certificate of Admission into the New Society shall be immediately issued to them on the simple payment of the usual first year's Subscription, in advance, subject however to the established penalty of two per cent. in the event of the payment being delayed beyond the term of one month from the commencement of the new Society, and to the entire forfeiture of the privilege of Transfer (excepting on a new application to the Directors, accompanied by the regular Certificate of health, &c. (if not made good within the second month from that period. The rates of Subscription for Members transferring their shares from the Second to the Third Laudable Society shall be according to the respective Ages of the parties on whose Lives the Shares are held on the 1st of January 1835.

ARTICLE 26.—It is proposed to render the Institution of the Laudable Society permanent by establishing a New Society in succession to each Society as it expires, and arranging the transfer of the shares agreeable to the above principle.

ARTICLE 27.—Upon the Transfer to the Third Laudable Society of any share or shares in the Second Laudable Society which may stand assigned by endorsement or otherwise for the benefit of any other person or persons originally interested therein, or upon any subsequent transfer of any share or shares so assigned from the second or any succeeding Society to the Society next ensuing, such share or shares shall continue in all respects subject to the lien of the Assignee and shall be declared to stand for the benefit of such Assignee in the Certificate of admission to be issued for the new Society.

ARTICLE 28.—Within one month and fifteen days after the 31st December 1834 the accounts of the Second Laudable Society shall be made up, and the balance of Funds actually on hand, after deducting the payment of 10 per cent to the new Society, shall be divided by the number of shares held on lives subscribed upon in this Society which may have lapsed between its commencement and its close as may be ascertained previous to the 15th day of February 1835—and the Parties entitled to benefit, by such lapses, shall each receive his or their proportion of the said Funds, according to the number of shares respectively held by them on the several lapsed Lives—the holders of half or quarter shares dividing according to those fractional proportions.

ARTICLE 29.—With respect to any lapses of lives in this Society which may not be ascertained on or prior to the 15th February 1835, such lapses shall be at the risk of the next ensuing Laudable Society, and the dividends to which the parties claiming to benefit by such lapses may be entitled shall be paid out of the Funds, and agreeably to the Regulations of the said ensuing Society on the said lapses being ascertained.

But it is hereby expressly provided, with respect to any lapses which may have occurred at any place to the Eastward of the Cape of Good Hope, that notice of such lapses accompanied by satisfactory proofs of the same must be given to the Secretaries of the Third Laudable Society within one year from the expiration of the Second Society on the 31st December 1834, or within two years, if the lapse have occurred in Europe or elsewhere beyond the Cape of Good Hope; and that in the event of the party or parties interested neglecting to prefer his or their claim on account of any such lapse within the period here described, he or they shall entirely forfeit all right and title to any benefit whatever, by reason of such lapse from the Funds of the Third or any succeeding society.

ARTICLE 30.—Any misstatement in the Affidavit of Health makes the policy void, as does Suicide in cases when a person effects an insurance on his own life, but not so in the case of Creditors effecting an insurance on the lives of their debtors.

SIGNALS

For Ships or Vessels in the Offing.

Signals respecting Ships or Vessels in the Offing, whether Men of War or Merchantmen are made from the Garrison Flag Staff, a Yard slung across the Top-mast, the points of which represent the quarter from which the Vessels are coming in.

Three Classes of Vessels are expressed by the Signals; Vessels of three Masts, of two Masts, and of one Mast.

An Ensign, or square National Flag, represents a Ship of three masts; a National Flag, with two points or Swallow's tail, represents a Brig or Snow, &c, of two Masts; and a broad National Pendant, terminating in one point, represents a Sloop or Cutter of one Mast.

If either of these Flags are hoisted to the yard above described, the Vessels seen are on the North or South quarters of the compass.

The number of Ships that appear in the Offing, are expressed by Pendants--a white pendant signifies one Ship or Vessel; a red and white Pendant, two Vessels; a red Pendant, pierced with white, three Vessels; and a yellow Pendant pierced with blue four Vessels; when the number of Vessels exceed four, they are to be considered as a Fleet; on which occasion a long blue and yellow Pendant will be hoisted.

If the Vessels in sight are Men of War, in the North or South quarters, one of the numerical Pendants will fly over the National Flag on either side of the Yard Arms.

If Merchantmen are seen in the North or South quarters, one of the numerical Pendants will fly under the National Flag on either side of the Yard Arms.

If the Ships are Indiamen, a blue Pendant will be displayed as usual under the Union Flag of the Fort.

If a Fleet is in sight, one Gun will be fired after the signal for the Fleet is made and if there are two Fleets of different Nations, in the same point of the compass, the signal of the first seen Fleet will be lowered after the space of 15 minutes, and a fresh signal hoisted, which is likewise to be accompanied by a Gun.

A Steamer or a Packet is announced with a blue flag pierced with yellow hoisted to the yard arms, expressive of the quarter she is in.

The annexed Plate represents the Flags of all Nations that trade to Madras; and the manner in which the Signals are made, to express Ships or Vessels discovered in the Offing.

The St. George's Flag hoisted on either points of the Yard Arm with a white Pendant over it, announces a British Man of War—The French or Tri-coloured Flag of two points or Swallow tail hoisted with a red and white Pendant over it represents two French armed Briggs or Snows, &c.; a broad American Pendant hoisted with a red pendant pierced with white flying over it, represents three American armed Cutters; and a Dutch flag hoisted with a yellow pendant, pierced with blue over it, represents four Dutch Men of War.

The St. George's Colours is varied according to the colour of the Admiral of the Squadron on the the station for the time being.

If the numerical pendant instead of flying over the national Colours are hoisted under them they will describe the same class of Vessels to be Merchantmen.

The blue Pendant hoisted under the Union with a white Pendant under an English Ensign hoisted on either yard arm, indicates an Indiamen.

N. B.—As the Marryatt's Code of Signals is so widely in circulation, and as the community at large are anxious of knowing the names of Vessels coming in, the Captains and Commanders of Vessels are required to answer without delay every signal made to them from the Flag Staff of the Garrison.

 LIGHT HOUSE.

The Light House on the Exchange in Fort St. George was erected by the Exchange Committee, with the sanction of Government, in December 1796, and is of essential service to Ships, coming to the Roads in the night.

The Light is 90 feet above the level of the Sea at high water, and can be seen from the decks of the Honorable Company's Ships; about 17 miles, and from their Mastheads near 26 miles.

The South part of Pulicat Shoal bears from the Light House N. by E. half E. distance 12 miles; and to keep clear of the Shoal, the Light should always bear to the Westward S. S. W. $\frac{1}{2}$ W.
